

Munish Kumar

Professional Summary

I am a Software Development student at AUT, pursuing a Bachelor of Computer and Information Science. Transitioning from a 21-year career as a bus driver, I bring strong skills in reliability, time management, and customer service. I have hands-on experience with C, Java, C#, PHP, HTML, CSS, JavaScript, Node.js, AWS, MySQL, Next.js, and Artificial Intelligence. Passionate about learning new technologies and solving complex problems, I thrive in collaborative environments and committed to continuous improvement. My skills also include Agile methodologies, human-computer interaction, and game development. I excel in communication, adaptability, and working effectively in diverse teams.

Work History

Ritchies Transport Ltd – Bus Driver

Auckland

07/2003 – Current

- Ensured safe and reliable transportation for passengers while adhering to schedules.
- Delivered excellent customer service and maintained a high standard of communication.
- Adapted to route changes and unexpected challenges while ensuring efficiency.

Adroit – Web Application Developer (R&D)

Auckland

[Year] – Current

- Developed and optimized a web application for R&D, improving data management and user experience.
- Utilized technologies such as React, Node.js, MySQL, and AWS to enhance performance and scalability.

Projects

- **Adroit Web Application (R&D):** Built a scalable web app that fetches IoT device data from AWS, detects non-working devices, displays them on a dashboard, and sends automated email alerts to the help desk.
